RAWABI UNITED SAFETY

GAS PLANT/REFINERY/PRODUCTION FACILITY
H₂S SAFETY EQUIPMENT RENTALS
DETECTION MONITORING SYSTEMS
TECHNICAL SAFETY SERVICES

Rawabi United Safety Services Company Limited (RUSS), a joint venture between Rawabi Holding and United Safety International, is a leading provider of H2S Safety Equipment, Breathing Air Safety Systems and H2S Safety Specialist expertise in the regional Oil & Gas Industry. Since its establishment in 2002, RUSS has been managing the H2S Services Contract for Saudi Aramco covering to date 800+ sour well locations both onshore and offshore.

RUSS's services include:

1. Technical Safety Services (Onshore & Offshore)

- H2S Safety Specialist Supervision, H2S responses, Drills, Exercises
- Site Control / Orientation / H2S Awareness / Emergency Response Management

2. H2S Safety Equipment Rentals / Modular Breathing Air Systems (On & Offshore)

- Air Trailer Systems / Safe Contain Air® / Breathing Air Cascade Systems and Compression
- Self Contained / Supplied Air and Emergency Escape Breathing Air Apparatus

3. Detection and Monitoring Systems (Onshore & Offshore)

- Wireless, Peripheral, Portable, Fixed, Solar, Remote and Powered Gas Detection Systems
- Site and Public Protection / Guardian Systems Plume Trackers / Remote Site Protection
- Light Weight Concrete Application
- Thermal Insulation Materials

4. Gas Plant / Refinery / Production Facility (Outages & Turn Arouns)

- Tower Rescue Tripods / Harnesses for Gas Plant / Refinery Plant Outages & Turn Arouns
- Positive / Negative Air Displacement Systems
Process Safety Supervision

5. Operational Safety Integrity Management Service (OSIMS™)

- Gap Assessments of Safety Management Systems and Emergency Response Plans
- Database management of wellheads and other assets for Risk Ranking Assessment

RUSS has developed a Saudi based Research & Development Department to provide engineering solutions to the customized requirements of our vital clients such as Saudi Aramco. We have an expert team of engineers who are developing new gas detection systems and updating the current ones in order to increase levels of efficiency.

About United Safety

United Safety, originating from Alberta, Canada, provides industrial safety products, safety consulting, and safety training to ensure that the workforce and public remain safe.

The company services both the Upstream and Downstream sectors of the Oil & Gas industry, offering quality and innovative safety solutions for:

- Plant Turnaround Services
- Onshore/Offshore Drilling and Well Servicing Activities
- Integrated Risk Management Services
- Safety Technician Services
- Construction Projects

United Safety currently operates globally in thirteen different countries and is aggressively expanding to meet worldwide demands.

United Safety is at the forefront of industrial safety equipment technology that includes breathing air systems and gas detection systems, along with innovative safety consulting and services for customers with multi disciplined contract work forces.
