RAWABI PASON

ELECTRONIC DRILLING RECORDER
ELECTRONIC AUTODRILLER
GAS ANALYZER
PIT VOLUME TOTALIZER
ELECTRONIC CHOKE ACTUATOR
IADC TOUR SHEETS

Rawabi Pason, an equally shared joint venture company between Rawabi Holding and Pason Systems Inc., is a leading provider of specialized data management systems for drilling rigs in the Kingdom of Saudi Arabia.

Rawabi Pason offers the following products and services:

- **Electronic Drilling Recorder (EDR)**

The Pason EDR is a system of networked computers, instruments, and monitoring equipment that helps improve rig efficiency by sharing data across the rig site, among different companies.

- **Electronic Autodriller**

Designed to reduce costs by saving drilling hours and extending the life of drill bits, the Pason Electric Autodriller maximizes rate of penetration (ROP) for both vertical and horizontal drilling by monitoring and controlling multiple drilling parameters, including weight on bit, differential pressure, ROP, and torque.

- **Gas Analyzer**

An industry-first, the self-contained, self-calibrating portable Pason Gas Analyzer provides real-time compositional gas analysis of hydrocarbons (C1-C4) and CO2 with a sampling rate of one second.

- **Pit Volume Totalizer**

The Pason Pit Volume Totalizer is a rugged pit volume measurement system. A critical safety component, this system provides the first warning of an impending kick or loss in circulation.

- **Electronic Choke Actuator**

- **IADC Tour Sheets**

Rawabi Pason's industry-leading products and services help clients reach their operational goals by enhancing the efficiency of daily operations with reduced downtime, lower costs, and increased safety.

About Pason Systems Inc.

Pason is a leading global provider of specialized data management systems for drilling rigs. Founded in 1978 in Calgary, Alberta, Canada, Pason first specialized in designing remote drilling chokes for the Canadian land-based drilling market, and employed just five people. Since then, Pason's strategic focus on unique, proprietary solutions and industry-best standard of care has helped the company become a global industry leader. Today, Pason leads the Canadian market, has a competitive position in the United States, and continues to grow its operations in South America, Australia, and other international markets, including offshore.

Pason's mission is to design innovative technology that's built for demanding rig conditions by developing highly-mobile, rig-tough products and by deploying the industry's most advanced service organization to the rig more efficiently than any of its competitors.
