RAWABI EMEC

- WATER & OIL BASE DRILLING FLUIDS
- ENGINEERING SERVICES
- LIQUID MUD PLANT & BULK STORAGE FACILITY

The Egyptian Mud Engineering and Chemicals Company (EMEC) started its operations in Saudi Arabia in partnership with Rawabi Holding in 1995. EMEC is a specialized drilling fluids solutions provider to the Oil and Gas Industry across the world with more than 35 years of experience.

From successful fluid services to well construction operations, EMEC is committed to providing services and solutions with an added value, anticipating and exceeding the needs of its clients and partners. The company has 130 current operating rigs in countries like Egypt, Saudi Arabia, Kuwait, Syria, Libya and Algeria.

EMEC's extensive list of clients includes major global players such as Shell, BP, Total, KOC, Saudi ARAMCO, Agip, Hydro and Sonatrach.

Over 8,000 wells successfully drilled and completed. Over 60 million feet drilled, including some of the deepest wells in the region, extended reach, multilateral and slim-hole wells and HPHT wells.

EMEC's activities with its partnership with Rawabi Holding include:

1. Supplying Chemicals and Mud Products for Water Base and Oil Base Drilling Fluids, Brine, Non-damage Free Solids Potassium Formate and Completion Fluids
2. Mud Engineering Services:
Providing top quality engineering services that lead to designing programs in order to achieve optimum drilling fluid performance and considerable reduction in cost
3. Providing Mud Plant for mixing and controlling Oil Base Mud properties as well as Bulk Facilities if required
