RAWABI PASON

- DRILLING DATA MANAGEMENT
- DRILLING OPTIMIZATION SOLUTIONS
- RIG INSTRUMENTATION SYSTEMS
- ELECTRONIC DRILLING RECORDER
- ELECTRONIC AUTODRILLER
- PIT VOLUME TOTALIZER
- IADC TOUR SHEETS

Rawabi Pason, an equally shared joint venture company between Rawabi Holding and Pason Systems Inc., is a leading provider of specialized data management systems for drilling rigs in the Kingdom of Saudi Arabia.

Rawabi Pason offers the following products and services:

- **Electronic Drilling Recorder (EDR)**
The Pason EDR is a system of networked computers, instruments, and monitoring equipment that helps improve rig efficiency by sharing data across the rig site, among different companies
- **Electronic Autodriller**
Designed to reduce costs by saving drilling hours and extending the life of drill bits, the Pason Electric Autodriller maximizes rate of penetration (ROP) for both vertical and horizontal drilling by monitoring and controlling multiple drilling parameters, including weight on bit, differential pressure, ROP, and torque.
- **Enhanced Pit Volume Totalizer + Smart Alarms**
The system enables early detection of gains and losses. It uses predictive machine learning to adapt to drilling and connection activities and dramatically reduce false alarms. NPT, mud costs and environmental clean-up are reduced.
- **Drilling Advisory System**
The next generation of automatic drilling increases ROP and improves well bore quality by optimizing Mechanical Specific Energy (MSE) and minimizing stick slip events.
- **Digital Trip Sheets**
Dramatically simplify the tripping workflow. A straightforward, touch-screen interface enables the driller to maintain focus on critical tripping operations while updating the trip sheet.

Proper hole fill procedures are enforced and consistent from rig to rig and crew to crew, less time is spent on trip sheets, and safety is improved.

- **IADC Tour Sheets**

Rawabi Pason's industry-leading products and services help clients reach their operational goals by enhancing the efficiency of daily operations with reduced downtime, lower costs, and increased safety.

About Pason Systems Inc.

Pason is a leading global provider of specialized data management systems for drilling rigs. Founded in 1978 in Calgary, Alberta, Canada, Pason's strategic focus on unique, proprietary solutions and industry-best standard of care has helped the company become a global industry leader. Today, Pason leads several drilling markets around the world. It has a competitive position in the United States, and continues to grow its operations in South America, Australia, and Middle East region.

Pason's mission is to design innovative technology that's built for demanding rig conditions by developing highly-mobile, rig-tough products and by deploying the industry's most advanced service organization to the rig more efficiently than any of its competitors.
